

Task 1: Component Creation:

Description: Build a basic component (e.g., a card, modal, or slider) in your portfolio page that you created during the first week of your internship using the chosen front-end framework.

Task 2: Interactive User Registration Form

Task Description:

You are tasked with creating an interactive user registration form for our website. The form should be visually appealing, user-friendly, and responsive to different screen sizes.

Requirements:

1. HTML/CSS: Create a well-structured HTML document with appropriate form elements. Apply CSS to style the form and make it visually appealing.

2. Form Fields:

Full Name (First Name, Last Name)

Email Address

Password

Confirm Password

Date of Birth

Gender (Dropdown or Radio buttons)

Profile Picture (with upload button)

Terms and Conditions Checkbox

Add a Password Strength Indicator at the bottom too

Provide a visual indicator showing the strength of the password (e.g., weak, medium, strong).]
