## Final Task !!

### Project

Work on a small webdev project/application. It could be a blog, a to-do list, or any other project that demonstrates your knowledge gained during the example internship.

couple of examples for the Final Project

- To do List
- Blog Platform
- Product Landing page
- Games
- Online booking system, etc

Note: These are just examples, you choose or find any project idea that you find interesting. You may work on it on your own or in teams of 2 to 4.

### Create a presentation of your project explaining

- Introduction
- Working
- Uses
- Advantages & Disadvantages
- Future scope
